

KENAN BAYLAN

iOS DEVELOPER

Hello, I'm Kenan, a 3rd year Computer Engineering student at Marmara University.

I am looking for a job for my summer internship and on-the-job training in my last academic year.

I love software and coding. Throughout my school life, I received training on C, Python, Java programming languages and learned the basic principles of software development such as data structures and algorithms, object-oriented programming.

I learned many programming languages such as JavaScript, Node js, React native, Asp.net Core Web API and Swift by making my own developments.

Mobile I am interested in mobile development and have experience with React native and Swift.

I want to continue my career as an iOS developer.

I am looking for internship and part time or full time job in iOS development.

You can check out my GitHub to see some of my projects.
